TRECCERT

ISO 37301 Foundation

Training Course

TRECCERT ISO 37301 Foundation is an entry-level course developed to provide trainees with a foundational knowledge of the ISO 37301 requirements and guidelines. The training course provides a complete introduction to the Compliance Management System (CMS) based on the ISO 37301 standard.

TARGET AUDIENCE

The ISO 37301 Foundation training course is developed for individuals interested in building a career or contributing to compliance management systems, for example:

- Compliance Officer
- Risk Manager
- Internal Auditor
- Other Management Personnel

LEARNING OBJECTIVES

- Understand the purpose and benefits of a compliance management system (CMS) and how it aligns with an organization's overall risk management strategy.
- Familiarize yourself with the structure and requirements of the ISO 37301 standard, including the role of top management, the CMS process approach, and the use of documented information.
- Understand how to continuously improve the CMS through the use of corrective and preventive actions, management review, and other process improvement techniques.
- Gain the knowledge and skills needed to support the certification process for the ISO 37301 standard, including preparing for an audit and maintaining certification.
