

GDPR Foundation Training Course

TRECCERT GDPR Foundation is an entry-level course developed to provide trainees with a foundational knowledge of the General Data Protection Regulation (EU) 2016/679 requirements and controls. The training course provides a complete introduction to the General Data Protection Regulation (GDPR) based on the 2016/679 regulation.

TARGET AUDIENCE

The GDPR Foundation training course is developed for individuals interested in the implementation process of a data protection framework based on GDPR requirements, for example:

- Information Security, IT, or Project Manager
- Data Protection Manager, Officer, or Specialist
- Data or Program Manager
- Data Processor or Controller

LEARNING OBJECTIVES

- › Know and understand the nature and purpose of the General Data Protection Regulation.
- › Know and understand the differences between the DPD and GDPR and the role of the European Union in Data Protection.
- › Know and understand the principles of processing personal data and the rights of the data subjects.
- › Know and understand the key roles and responsibilities of persons and entities affected by GDPR.
- › Know, understand and be able to support GDPR implementation in the role of a member of the GDPR implementation team.
