

ISO/IEC 27001:2022 Transition Training Course

The ISO/IEC 27001:2022 Transition Course is designed to help individuals understand the updates to the standard and how to transition their ISMS to meet the new requirements. It is a course developed to provide trainees with a solid knowledge of the changes and updates to the standard, including new requirements for risk assessment, incident management, and information security governance.

TARGET AUDIENCE

The ISO/IEC 27001:2022 training course is developed for professionals who are responsible for managing or implementing an ISMS based on the ISO/IEC 27001 standard. This may include information security managers, information security officers, and IT professionals. The course may also be suitable for individuals who are preparing to take the updated ISO/IEC 27001 Lead Implementer or Lead Auditor certification exams.

LEARNING OBJECTIVES

- Understand the updates and changes to the ISO/IEC 27001:2022 standard and how they differ from the previous version of the standard.
- Be able to apply the updated standard to an organization's ISMS, including the new requirements for risk assessment, incident management, and information security governance.
- Develop a plan for transitioning an organization's ISMS to the new requirements of the ISO/IEC 27001:2022 standard.
- Understand the principles of information security management and how they can be applied in practice.
