

# **INFORMATION SECURITY MANAGEMENT SYSTEM (ISMS) TRAINING COURSE**

The ISMS Professional training course is a professional-level course developed based on the ISO/IEC 27001 requirements. In this four-day course, participants are provided with a practical understanding of how to establish, implement, maintain and assess an information security management system (ISMS).

# AUDIENCE AND COURSE OBJECTIVES

The ISMS Professional training course is developed for members of an ISMS team, personnel involved in ISMS implementation or auditing, and professionals wanting to increase their competency in implementing and auditing an ISMS.

This training provides in-depth explanation of key concepts, mandatory requirements, Annex A controls based on the ISO/IEC 27002 guidelines, a structured implementation approach, and an auditing process based on the ISO 19011 guidelines.
